

\$5 for the Fight!

It's Time to FIGHT BACK. Can YOU Help?

The International Association of Machinists is sick and tired of watching good workers get beat up and smacked down by corporate thugs and their government servants.

From state employees in Wisconsin to skilled machinists right here in Connecticut – we have seen enough greed-driven disrespect and contempt of working people to last a life-time.

So we're doing what the Fighting Machinists do best – we are **FIGHTING BACK!** We're going after the blowhards, tax evaders and union-busters who are swarming across this land. So is the labor movement as a whole – and the result is the start of some real **Solidarity & RIGHTEOUS ANGER.**

Workers are the back bone of this great country – and there are more of us than there are pin-head pundits and corporate aristocrats. When we push back, if we ALL push back, they will feel the shockwaves.

We have the troops – but the other side has the gold. To fight them, we need extra resources for this extraordinary effort. **The IAM is asking every member – can you spare \$5 to help fund the fightback?**

IAM stewards, officers and activists will be contacting members – including you – at every worksite to consider kicking in \$5 – to protect workers getting kicked in the teeth right now. You can also bring your \$5 to the Union Hall. Your \$5, and everybody else's, will give us the means to kick back – *where it counts.*

Stand Proud & Get Loud!
